PROJECTS

Interactive Math Tuition Portal

A dynamic web platform for promoting tuition classes. Features include class schedules, course descriptions, teacher profiles, and a contact form for student enrollment. The website provides an interactive interface for students and parents to explore courses and engage with tutors.

Technologies: HTML, CSS, JavaScript, PHP, Bootstrap

Dynamic Customer-Focused News Platform

A modern, responsive news website delivering the latest news, articles, and updates. Users can browse news by category, search for specific topics, and read full articles. Includes features like featured news sections, image galleries, and a user-friendly navigation menu.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Responsive Coffee Shop Website

A fully responsive website for a coffee shop that highlights the menu, services, special offers, and ambiance. Users can navigate easily to view categories, check pricing, and contact the shop. The design emphasizes a clean, modern layout and smooth user experience.

Technologies: HTML, CSS, JavaScript, Bootstrap

YouTube-Style Video Streaming Interface

A web-based video streaming platform simulating YouTube functionality. Users can search for videos, play selected videos, and navigate through playlists. The interface emphasizes ease of use, responsive design, and multimedia playback optimization.

Technologies: HTML, CSS, JavaScript, PHP
