ABOUT ME

Motivated third-year Software Engineering undergraduate at NSBM Green University with practical experience in software development and quality assurance. Completed a three-month contract as a Quality Assurance Engineer, gaining hands-on experience in software testing, defect identification, and collaboration with development teams. Previously worked at Zonzoctech Solutions in professional environments. Adaptable, detail-oriented, and eager to apply strong problem-solving, technical, and teamwork skills to build reliable, user-focused software solutions.

SKILLS

Technical Expertise

Python | Flutter | Dart | React.js | Node.js | Git | AWS | MySQL | JavaScript | MongoDB | Firebase | C++

Tools

Visual Studio Code | Android Studio | Figma | GitHub | Postman

WORK EXPERIENCE

– SRI LANKA

QUALITY ASSURANCE INTERN | INNODATA – 25/03/2026 – 30/06/2026

- Executed manual testing to identify functional, usability, and interface defects in software applications.
- Prepared and maintained test cases, test scenarios, and testing documentation based on requirements.
- Reported software defects with clear descriptions, reproduction steps, screenshots, and severity levels.
- Performed functional, regression, integration, and user interface testing across different application features.
- Collaborated with developers to reproduce defects, verify fixes, and improve overall software quality.
- Participated in requirement discussions and provided feedback regarding usability and potential quality risks.
- Monitored testing progress and communicated test results to relevant team members.
- Gained practical experience in software development life cycle and software testing life cycle processes.

WEB DEVELOPER | ZONZOCTECH TECH SOLUTIONS – 05/09/2025 – 15/03/2026

- Developed responsive and user-friendly web pages using HTML, CSS, JavaScript, and React.
- Converted design requirements and interface concepts into functional web components.
- Created reusable components and maintained clean, organized, and readable code.
- Improved website responsiveness and compatibility across different devices and browsers.
- Integrated frontend interfaces with APIs and handled data within web applications.
- Identified and resolved user interface, functionality, and performance issues.
- Used Git and GitHub for version control and source-code management.
- Collaborated with team members to implement new features and improve existing functionality.
- Assisted with website deployment, maintenance, and content updates.

FREELANCER – 08/10/2024 – Current

- Designed and developed responsive, user-friendly websites according to client requirements.
- Built reusable frontend components using HTML, CSS, JavaScript, and React.
- Communicated with clients to understand project requirements, timelines, and expected outcomes.
- Improved website performance, responsiveness, usability, and browser compatibility.
- Identified and resolved interface, functionality, and deployment issues.
- Used Git and GitHub to manage source code and project changes.
- Deployed and maintained websites using suitable hosting platforms.
- Provided ongoing technical support, content updates, and improvements based on client feedback.
- Managed multiple development tasks while meeting agreed project deadlines.

EDUCATION AND TRAINING

01/02/2025 – CURRENT Sri Lanka
BSC (HONS) IN SOFTWARE ENGINEERING | NSBM GREEN UNIVERSITY

Field of study Software and applications development and analysis , Database and network design and administration , Computer use

DIPLOMA IN INFORMATION TECHNOLOGY | ESOFT METRO CAMPUS

Field of study Computer use , Information and communication technologies not elsewhere classified

2012 – 2020
GCE A/L CERTIFICATION | THURSTAN COLLEGE - COLOMBO 07

CERTIFICATIONS

Networking Academy with Cisco | Python Institute, 2026
Python

Mode of learning: Project based

LANGUAGE SKILLS

Mother tongue(s): **SINHALA**

Other language(s): **ENGLISH - PROFESSIONAL WORKING PROFICIENCY**

PROJECTS

Food Delivery Application (Mobile & Web)

A cross-platform food delivery application built with Flutter (mobile) and React (web), allowing users to browse menus, place food orders, and track deliveries, with web-based order and menu management.

Technologies: Flutter, Firebase, React, Node.js, CSS

Link https://food-delivery-uph5.vercel.app/

Zonzoctech – Company Website

Designed and developed the official website for Zonzoctech, focusing on a clean, responsive UI and clear service presentation. Implemented modern layouts, optimized performance, and ensured cross-device compatibility.

Technologies: React, Node.js, MongoDB, CSS3,

Link https://www.zonzoctech.com

Evenet Manegement & Ticket Booking System

Developed a web-based system that allows users to browse events, book tickets, and manage bookings online. Implemented MVC architecture using Spring Boot with database integration for event and ticket management. Included admin features for event creation, updates, and ticket monitoring.

Technologies: Java, Spring Boot, Spring MVC, MySQL, HTML, CSS, JavaScript, Git

Interactive Math Tuition Portal

A dynamic web platform for promoting tuition classes. Features include class schedules, course descriptions, teacher profiles, and a contact form for student enrollment. The website provides an interactive interface for students and parents to explore courses and engage with tutors.

Technologies: HTML, CSS, JavaScript, PHP, Bootstrap

Dynamic Customer-Focused News Platform

A modern, responsive news website delivering the latest news, articles, and updates. Users can browse news by category, search for specific topics, and read full articles. Includes features like featured news sections, image galleries, and a user-friendly navigation menu.

Technologies: HTML, CSS, JavaScript, PHP, MySQL
